

WAIT FOR JUNE

"Like reaching into a well-stocked record shelf – no matter what you pull out, you always find pure joy of music inside, celebrated in any form."

"A bit reminiscent of Scandinavians – so sad but beautiful."

In 2013, the band from Wetzlar, Hesse, got together to write songs and release in the following years two EPs and a long-player on their own. In the meantime, the four musicians have been able to make a name for themselves through their winning enthusiasm for music on stages throughout Germany, Switzerland and the Netherlands. Their trademark: Sophisticated but catchy songwriting supported by a large repertoire of instruments which the band uses alternately. And so it's no wonder that the unusual mixture of folk, indie, rock, piano-pop and a little funk contains just about everything that makes every music lover's heart happy, often even dancing! Equally special is the interplay in the vocals that makes the songs of Wait For June. While Manuel Sohn lends a mixture of melancholy and hope to one number with his warm and earthy voice, Jule Jochem takes over on the next with her soft-sweet, yet powerful voice.

At the same time, Wait For June relentlessly strive for their musical development. In October 2022, the brand new album HELLO HELLO was released, for the first time in collaboration with the extremely creative producer Mark Ziemann. The successful cooperation is reflected in the versatile and detailed arrangements and formed the strengths of the four band members to another great harmonious listening experience.
